The following information contained in this booklet outlines Our Statement of Purpose and the approach ROC Northwest Ltd takes when working with young people at “Aroona”. This booklet does not contain all our policies, procedures and routines but these are available on request. Please note that a copy of our Policies, Routines and Procedures can be viewed when visiting “Aroona”.

Quality and Purpose of care

The young people referred to “Aroona” usually require short/medium or long term care away from their family environment and may have a range of learning, emotional, physical needs.

We can offer placements to young people:

- 5 residential placements
- of either gender
- who require short/medium or long term care
- have challenging behaviour
- are victims of abuse: physical, sexual or emotional
- are going through some form of crisis in their lives
- are recovering from some form of illness
- behavioural, social and emotional difficulties
- have sexualised behaviours
- have been involved in child sexual exploitation
- have self-harming behaviours
- have attachment disorders

Mission Statement

Our Mission at “Aroona” is to offer young people in crisis a family environment where they can settle, relax and bring some stability to their lives. An environment where they will receive understanding, encouragement and support from adults who care and are trained to work in a professional and non-judgmental way. Our staff will work hard to lead the young people towards reaching their full potential and prepare them for the responsibilities of future citizenship.

We aim to offer each young person placed at “Aroona” a safe, stable, caring and nurturing environment that will bring some stability to their life. Where each young person is able to develop, equipping them with the skills to make responsible choices and cope well as individual citizens. We aim to treat each young person as an individual with a variety of individual needs that are addressed in a positive and progressive manner as part of a clearly defined care plan. At Aroona we feel it is important to support young people to focus on their futures. We acknowledge that young people who face moving to adult services can find this transition very difficult, so we focus greatly on developing life skills and emotional resilience to prepare them for their future. Our flat attached to the main house provides an ideal setting for this.

We believe that each young person is an individual and is entitled to respect, courtesy and full recognition of their rights. We operate a caring, nurturing home with clearly defined expectations and boundaries that is responsive to the young person’s immediate needs and where they can be tolerated when feeling anti-social, yet treated consistently and firmly and

where attitudes on the whole seem to be fair. We aim to work with young people at a realistic pace and in an age appropriate manner, which encourages personal growth and emotional development enabling them to accept and manage feelings, both positive and negative, and respond appropriately promoting a high level of self-esteem.

We believe that:

The welfare of the young people in our care is our number one priority.

Young People who come to stay are placed in an environment that offers them safety, security and care where all members of the staff team working with them have the skills and abilities to help and support them with the range of difficult behaviours they present.

Each young person is recognised as unique with specific needs and beliefs that requires individual assessment and planning. They have the right to be consulted about the decisions being made about his/her future and where possible his/her feelings taken into consideration.

Each young person is valued and shown respect and courtesy from our staff team who will give them every encouragement and support in reaching their full potential.

Ethos, aims and outcomes

- 
- To provide a safe, structured and nurturing care experience where the young person can be tolerated when feeling anti-social, yet treated in a consistent, firm and fair manner. All staff will be appropriately trained in safeguarding procedures and whistle blowing practices. All young people will be treated as individuals and support will be put in place to meet their personal needs.
 - To provide routines and procedures that will provide some structure and security for the young person but be flexible and unobtrusive in order to meet his/her needs. This will be done through a holistic approach with realistic expectations put on the young people to aid in their own development through a structured environment.
 - To create an atmosphere/environment which reflects that of normal family life. In doing so, encouraging the young person to feel very much part of the “family feel” by participating in the daily running of the house and developing relevant, semi-independent living skills. This will be achieved by the home placing normal values on the young people and undertaking family events such as group outings to promote the relationships.
 - To provide a living situation where each young person works alongside staff on their individual care programme which best meets their needs and incorporates the best possible emotional, physical and health care. The home will be in line with the needs of the young people.
-
- To unobtrusively assess the young person during the first weeks of their stay at Aroona to ascertain their immediate needs and help to plan a more detailed and supportive Care Plan. This is done through the admission process as part of a 28 day assessment period.
 - To create an atmosphere where the young people are praised and rewarded for positive behaviour and supported, encouraged and helped in times of trouble and negativity. We adopt a reward vs consequences structure where the young people are praised for their positive achievements to promote them achieving their full potential.
 - To provide a high staff/young person ratio enabling a high degree of individual support and attention for each young person. The home will be staffed in line with the needs of the young people.
 - In all situations it is intended to provide each young person with an individually designed care programme to enable them to develop skills and maximise potential through participation in a range of activities in a stimulating, positive and safe environment. All the young people will be designated with two keyworkers who will work with them in partnership to identify and develop on flaws to support them in developing these areas.
 - To ensure all people will receive the same standard of services irrespective of race, religion or creed in line with our Equal Opportunities Policy whilst promoting awareness raising, monitoring and taking action for effective anti-discriminatory

practice. This will be done by all staff being trained appropriately and practice will be monitored, discussed and developed so that as a team we deliver the best possible care to the young people residing in the home.

- To provide this service for 24 hours per day, 7 days per week, 365 days of the year through appropriate and adequate staffing for the home to meet the needs of each young person.
 - To ensure the young person feels safe, secure and cared for. This will be achieved through having the young people contribute towards the home and their own thoughts and feelings being sought on a regular basis through young people meetings and keyworker sessions about the home.
 - Promote opportunities to help all children and young people, whatever their ability, to achieve their full potential. Through an individualised approach to each young person staff will work closely with them to help them achieve their full potential by seeking appropriate support from other professional in the specific fields and calling upon the life experience and skill set of each individual staff member
 - To bring some form of stability to the young person's life by the home having structure, routine and staff working together in partnership in a consistent approach to meet the needs of the young people.
 - To make the young person smile through positive experiences.
-
- To work closely with the young person in developing strategies that will help them work through some of their problems and assist them in coming to terms with their past. This will be done in a nurturing atmosphere with staff being sensitive and supportive to each individual young person and aiding them to seek out appropriate professionals to help them with any issues they have.
 - To create opportunities that brings the young person some success thus giving them some insight into a better future. This will be done in a supportive manner where the young people will be tested but guided through new experiences to let them achieve success.
 - To provide a service that will assist the young person to settle, stabilise their behaviour and allow them the time, opportunity and support to make decisions about their future. Through adopting consistent, firm but fair approach the young people will be supported through the day to day expectations of society and supported in their own decision making.
 - Develop individual care programmes to meet the needs of each child or young person. Staff will work in partnership with the young people to identify areas of development and support each young person in developing personal coping strategies to modify their behaviours and develop them into a well-rounded person.

- 
- Work in partnership with children, their families and significant others through regular contact and updates so all are aware of each young person and we are all working towards the same desired goal to provide a united front.
 - To assist the young people, in partnership with other agencies, to plan for their future with regard to their ongoing learning or training, job opportunities and career prospects, social aspirations and the opportunity to make a transition back to;
 - The home area
 - To their family/foster carers
 - To semi /independent living accommodation.

Accommodation

Aroona is a large detached property, with a self-contained flat adapted for single occupancy, set in a large garden. Aroona looks after 5 young people. The main house has been specifically adapted to suit the needs of children's home, for the accommodation of four young people of both sex between the ages of 8 and 18 years old on admission. In unique circumstances it may be beneficial to extend a young person's placement who may go beyond 18 years old to support their transition. The accommodation is decorated to a high standard, which is conducive to providing a friendly and homely atmosphere.

We look after 4 young people and 1 young person who lives in the flat. We are registered to provide care for young people from the age of 8 up 20 years old who have emotional and behavioral difficulties or learning difficulties.

We aim to ensure that our house reflects that of a family home where the young person can feel safe, relaxed in a non-institutionalised setting.

The maintenance and décor of the home is an ongoing project, which the young people are encouraged to have some input into. We believe in involving all of the young people with any

project that is to be completed within the home. The rationale behind this is to give a sense of belonging and commitment to the home.

The home has a fitted kitchen, dining room and lounge with a new conservatory off the lounge. Downstairs there is a bedroom with en-suite. There is a staff office/sleep in with a separate staff bathroom.

Each room is equipped with furnishings and surroundings are kept safe and well maintained. Outside there is a patio area in front of the conservatory with gardens to the front and to the rear which includes a soft play area.

Each young person's bedroom is warm and bright and we encourage them to personalize with their own possessions to promote ownership of their surroundings. We provide TV and CD/radio in each room.

We encourage all those who come and live with us to bring their own personal possessions so as to make their bedroom feel their own and we encourage this through personalisation upon arrival where each young person is given a room budget, this is to promote the young people taking ownership of their surroundings.

The flat that is attached to Aroona is an area that can be considered for multi-purpose use. It is designed to provide independent training to young people. It is a two bedded home with its own kitchen/dining area where young people can prepare food, cook, budget, do their own washing/drying and ironing their clothes. The young person has a bedroom with en-suite and a lounge where they can relax and watch TV. The second bedroom is for staff members to perform sleep in the home.

Location

Our home is situated on the outskirts of Lancaster but within walking distance to the town. Within the local area there are a range of cultural and recreational facilities including parks, libraries, and sports facilities, religious and cultural centers. It also enjoys a positive and friendly relationship with the neighbors and close local community. Within easy reach there is access to a wide range of educational and entertainment facilities including cinemas, museums, theatres and bowling alleys. There is a bus route that takes you directly into the city and to surrounding towns and cities.

Cultural, linguistic and religious needs

All young people's religious, cultural and linguistic needs will be supported fully. Staff will liaise with the young person, parents/carers and social workers regarding specific religious and cultural needs and make appropriate arrangements to facilitate them.

All young people placed at "Aroona" are encouraged to pursue their interests and hobbies and are encouraged and supported to follow it. Birthdays are celebrated and young people

are encouraged to negotiate planned leisure activities and special events with members of the staff team. We also ensure that young people recognise special occasion's with Family members, such as Christmas, birthdays, mothers and father's day. We support the young people to provide a card and gifts to send to their family.

We encourage our young people when planning the weekly menu to have a themed night to provide them with an experience to try different cultural foods and festivals.

If a young person has particular cultural, linguistic or religious belief, and wishes to pursue those beliefs, it is important that they feel able to do so. The staff team within Aroona will always actively support young people in pursuit of their beliefs, whether that is by providing a certain choice of food or preparation of food, or by ensuring that the young person has transport to and from their chosen place of worship. We would also support them through access to people with similar backgrounds and via local amenities such as social groups or churches, mosques, temples, etc.

In meeting the needs of young people from other ethnic groups and to combat racism within the home, we aim to create a stable, accepting, caring environment, which will help to:

- Enhance the young person's self-esteem.
- Provide the young person with coping strategies necessary for living in a society where they may experience racism, stereotyping and prejudice.
- Create a climate where racial and religious differences are acknowledged and valued and discussion about racial issues is actively encouraged rather than ignored.

- Allow visiting parents, relatives and friends to feel comfortable and supported in the maintenance of contact, regardless of race, religion, or class.
- Provide appropriate health and hygiene support and care when necessary. Staff ensure of products or type of physical care should feel able to seek advice.
- Young people will be supported to practice any religious faith they wish to choose or any cultural norms for their society.
- Encourage acceptance of the young person's race in a positive way and not dismiss their race and color as insignificant.
- Challenge racism in whatever form presented.

Complaints

The home recognizes the vulnerability of children living away from home and how difficult it can be for them to make complaints, especially against adults caring for them. The atmosphere in the home is conducive to children expressing their concerns and staff are committed to solving problems as they arise. If the young person is in agreement, complaints can be made on their

behalf; for instance by their independent visitor, through an advocacy service; or through their family.

Aroona provides a professional, caring service to young people it would be naïve to believe that no problems or incidents occur during placement. We believe that young people can voice a complaint about any issue during their placement.

Information on how to make a complaint is given to each young person in their information booklet, which they are given when they arrive at Aroona. Young people can also access complaints forms and stamped addressed envelopes should they not wish to ask staff in communal areas. The assigned key workers will explain the complaint procedure to ensure they fully understand the process. In the booklet are telephone numbers to which the young person can ring to make a complaint and the address of Ofsted.

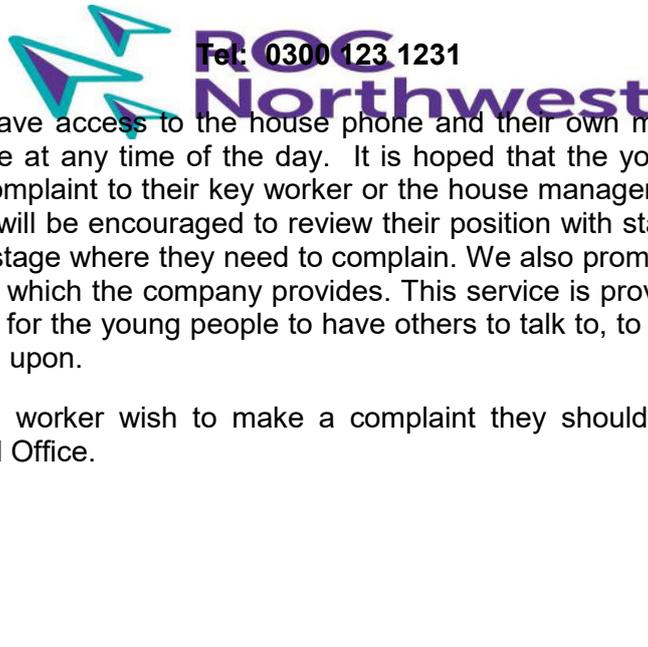

Aroona has a full written complaints and representation procedure, which is shown and explained to every child on their admission; they are subsequently reminded of their right to complain. In most cases the concerns of the individual can be resolved informally, without invoking formal procedures. Additionally young people are actively encouraged to seek outside support through their families, referring social services department, Ofsted, Regulation 44 Visitor, advocates or services such as 'Child line' if they have concerns that they wish to discuss.

There are child friendly complaints forms. All staff have training on how to deal with a complaint, and who to report the complaint to. Staff are aware of the role of Ofsted and the Regulation 44 visitor. There are procedures in place for addressing complaints made about the Manager. A log is kept of all complaints made and is available for inspection by Ofsted, the Regulation 44 Visitor and the children's social workers. The Manager reviews all complaints and records outcomes. The child's voice is always included.

A young person can also make a complaint or raise any concerns to their Social Worker should they wish to do so. A Children's Rights Officer can also be contacted if the young person did not feel that they were being listened to. The nominated officer would then make arrangements to visit and speak to the young person and follow up with any subsequent actions.

A list of telephone numbers is listed in the young person's booklet to which the young person could ring to make a complaint and the address and telephone number of our local Ofsted team which is:

**Ofsted Social Care Team
Piccadilly Gate
Store Street
Manchester
M1 2WD**

The young people have access to the house phone and their own mobile phone and can make a call in private at any time of the day. It is hoped that the young person would be able to make their complaint to their key worker or the house manager who visits the house daily. Young people will be encouraged to review their position with staff and identify issues before they reach a stage where they need to complain. We also promote regular visits from an Advocacy service which the company provides. This service is provided by NYAS and is an additional avenue for the young people to have others to talk to, to discuss any concerns they wish to be acted upon.

If a parent or social worker wish to make a complaint they should contact the General Manager at our Head Office.

Child protection

ROC Northwest Ltd has designated the Registered Manager as the Child Protection Officer. In addition, all members of staff are made aware of their role and responsibility in Child Protection matters and receive training in Local Safeguarding Children's Boards policies and procedures, which ROC Northwest Ltd have adopted. All new members of staff follow a comprehensive induction programme which includes Child Protection, and training with the safeguarding board to raise awareness and understanding of abuse and protection. This is updated every 2 years.

The home ensures they have close links with the Local Area Designated Officer for safeguarding who is located in Preston. If the manager of the home has any queries or concerns they ensure they keep him informed and seek advice and guidance where necessary. Our local LADO officer is:

Behaviour Management

Here at Aroona we adopt a behaviour management approach of focusing on the positive steps a young person is making and use reward vs consequence. All our young people are supported through a firm, fair and consistent approach which is established through routine. The ethos and culture of the home is one of a normal family environment which is developed through the staff team working in each home and working alongside each young person. A warm, nurturing, safe environment is what we aim to provide. Through a consistent approach from all staff within the home following the young people's personal behaviour management plans we aim to modify the young people's behaviours to prepare them for future life. There are occasions where we use physical intervention, however this is used only as a last resort. If these incidents occur we support the young people and the staff to reflect through each incident to rebuild their relationships.

All policies and procedures are kept on file within the office of the home and can be accessed upon request to management of Aroona.

Views, wishes and feelings

Child consultation

The staff at Aroona are expected to work in partnership with young people to develop an ethos, which balances each individual's rights and needs with the needs of the group as a whole. They believe that the more involved young people are in influencing the day to day running of the home the more they will feel heard and respected and the more they will benefit from their time at Aroona.

Each young person is allocated two key workers within 24 hours of placement and is offered at least two keyworker sessions per month. This time will be spent looking at aspects of the young person's Placement Plan and will also offer the young person the opportunity to comment on how they are cared for and how the home is run. Key workers will also speak to the young person's family to hear their opinion of the young person's quality of care.

In addition the young people have weekly meetings with staff at which there is an agenda and any issues can be raised. Minutes are taken at these meetings. There is the opportunity for the young people themselves to take turns in chairing these meetings if they so wish. Staff also consult with placing Social Workers and other professionals involved with young people about the overall running of the home.

Young people are involved and consulted in relation to all aspects of their lives within the home, their community as a whole, their future and their role within family and society through:

- Full involvement in all meetings.
- Both planned/unplanned Placement Plan sessions.
- Regular young people's meetings.
- Menu/activity planning.
- The right to follow their own religious beliefs and the opportunity to attend the church, mosque, temple or other place of worship commensurate with religious beliefs.

All consultation documents for young people living at Aroona will be differentiated to meet their individual communication and learning needs.

All staff consulting with the young people will be mindful of their disabilities, religious, racial, cultural and linguistic backgrounds. Staff ascertaining the wishes and feelings of the young people will be familiar with them and their preferred methods of communication.

Each young person is encouraged to, and supported by staff, in contacting the Children's Rights officer and/ or their IRO if required. Arrangements would be made for an independent visitor to visit the home if a young person requested this. Young people can request to speak to NYAS at any time during the month and this would be arranged by staff members. Regular feedback is obtained from the young people by the homes manager on all aspects of their care. This is done through questionnaires; feedback forms and one to one

discussions. The manager will ensure that all feedback is valued and acted upon accordingly. The young people will be made aware of any action taken in light of their feedback.

Anti-discrimination and children's rights

The home is committed to treating all the young people fairly and equitable regardless of race, colour ethnic or national origin, sexual orientation, age or religious beliefs, disability, family responsibility or any other category. We will ensure that no unjustifiable requirements or conditions are imposed that could disadvantage individuals on any of the above grounds.

In relation to advocacy the Homes Manager will ensure that each young person has access to an independent person whom they may contact directly about personal problems or concerns at the home. This will be in the form of someone such as an advocate, children's

rights officer, adult family member, personal adviser, visitor acting on behalf of an organisation, independent visitor or Mentor.

As a home we promote regular visits from NYAS which is an Advocacy service and is an additional avenue for the young people to have others to talk to, to discuss any concerns they wish to be acted upon.

Equal Opportunities

ROC Northwest Ltd is committed to ensuring equality of opportunities, anti-discrimination and anti-racism and draw attention of the staff and residents, families and referring authorities to our Equal Opportunities Policy in our Policies and Procedures file.

ROC Northwest Ltd requires individuals to promote equality of opportunity, anti-discrimination and anti-racism. This should be placed at the heart of good practice at ROC Northwest Ltd and it is the duty of everyone to report or correct any discriminatory practise they observe.

Policy to reduce the Incidence of Bullying

ROC Northwest Ltd takes all acts of bullying seriously. Staff are always vigilant and aware that bullying could take place even within the small group of young people who live in our home, each young person has the right to be protected from bullying and from the fear of being bullied. The credibility of our policy regarding bullying depends on the staff in the home taking agreed action when bullying arises. (Please refer to our policies and procedure document that can be viewed in the home which outlines agreed lines of action taken if bullying occurs).

Education

At ROC Northwest Ltd we believe that all children:

- Have capacity to learn
- Are highly motivated to learn from birth
- Like to learn, to be challenged and to achieve success: and
- Have a right to a broad, balanced and relevant education

We also believe that learning:

- Is a lifelong skill that goes far beyond school days and traditional classroom environments
- Can take place in a variety of settings
- Is about the National Curriculum but it is much broader than that;

- 
- Is more likely to take place when conditions for learning are best matched to a child's individual needs; and
 - Is more likely to be successful when the child is involved in planning for his/her learning and has some responsibility for it.

However, we recognise that many children we care for have:

- Lost their way in learning at some point in their young lives;
- Missed a lot of schooling and have significant gaps in their learning;
- Disengaged from some or all aspects of their learning or have become disaffected with it;
- Lost confidence in their ability to learn;
- Poor self-image of themselves as learners; and are
- Reluctant to return to some or all aspects of learning for a variety of reasons.

Education arrangements

We place great emphasis on the education and development of the young people at Aroona and education plays an integral part of day-to-day life within our environment. We believe that a young person's education should suffer the minimum of disruption and arrangements for education as a part of the care plan are taken into account when planning any admission to Aroona.

Our primary aim is to ensure that wherever possible young people placed with us either continue at their existing school, or make a positive and speedy transition to a school identified in the locality.

At Aroona we work closely with the CLA Education Placement Team to ensure that we explore every avenue to provide each young person access to an education programme that can be tailored made to suite each individual's needs.

Enjoyment and Achievement

Activities

All young people placed at Aroona are given opportunities to participate in appropriate leisure activities which take account of their race, culture, language, religion, interest, abilities and their disabilities.

Any young person who has a pursuit is encouraged and supported to follow their particular skill.

Birthday, cultural and religious festivals are celebrated where appropriate and the young people placed with us are encouraged to plan and negotiate leisure activities and special events with members of their staff team.

There are lots of Community resources in the local area for activities including Leisure centers, activity clubs and classes, youth clubs and volunteer organisations. Other activities that are available to the young people include trampolines, swimming, badminton, squash, tennis, football, cycling, walking, judo, ice-skating, rollerblading, Go-Karting, horse riding, guitar lessons, dance classes, music and singing lessons.

The young people are encouraged to read; to participate in art and crafts. Children are encouraged to explore their artistic potential through art and craft, music, poetry, song, creative writing. Resources are available within the home for the young people to be able to take part in these interests.

The young people are encouraged to join in community activities such as youth club or climbing club, army and navy cadets and other interest groups.

The staff team helps the young people to complete weekly activity planners, choosing what they would like to do each week. This will be a combination of in house and out of the home activities. The staff will use keyworker sessions and young person's meeting as an opportunity to suggest and support the young people with new or existing interests. Aroona encourages and promotes 'theme nights' for our young people and these include the celebration and education relating to different cultures.

Health

Meeting health and medical needs

It is our aim that all young people placed with us are healthy and happy and one way we achieve this is by making sure they are medically well cared for.

The local surgery has male and female doctors available therefore allowing the children to have a choice of GP and of their own sex if preferred. Should it be necessary the GP can refer patients to specialist clinics at our local hospital, Lancaster Royal Infirmary? Young people will also be registered with a dentist and opticians to assess their needs. We also have close links with the local CLA Nurse called Lisa Dorrington. She will regularly visit the home and have open discussion with the young people and is available for additional

However short the placement with us at Aroona we believe in proactive education regarding health issues. Care staff members follow programmes co-ordinated by professionals which will cover healthy living and eating, care of your body, personal hygiene, infectious and transmittable diseases, female sanitary care and awareness, contraception, family planning, alcohol, solvents, drug abuse and smoking. We also have close links with other health professionals such as therapists.

We keep an up to date health record on each young person which contains all relevant information e.g. routine checks, illness, medication etc. All the young people have regular keyworker sessions where they are able to raise any concerns they may have regarding their own health and these are acted upon quickly. All the young people's medication is reviewed on a regular basis in line with their individual needs. All the young people all so have a regular annual health assessment in order to make sure that the home is meeting their individual needs.

The staff team attend mandatory training and workshops, in order to promote health and well-being. Examples of training are; Health and Safety, Administration of Medication, First Aid, Food Hygiene, and promoting equality and valuing diversity. Specific training can be sourced around individual needs at the point of referral and placement.

Smoking Policy

Our policy is to promote the principal and widely held belief that the young people should not smoke because it is detrimental to their health. There is a strict non-smoking policy for staff and young people as they are expected to act as role models to the young people in our care.

A health education approach is implemented to encourage young people to reduce their smoking and help can be sought from local GP surgeries through a smoking cessation programme. Every opportunity is taken to enable young people to be aware of the potential dangers associated with smoking in an empowering manner providing information and advice when requested.

Under no circumstances will ROC Northwest Ltd purchase tobacco and will actively encourage young people to stop smoking.

Food

Young people are encouraged to take part in the purchasing and preparation of food. In this way they can ensure that particular favourites are purchased and prepared to their liking. We set great importance to the provision of healthy food and attempt to encourage the young people to understand the benefits of a healthy balanced diet, whilst recognising that many young people prefer "fast food" type meals. A menu is written and agreed amongst the young people and staff.

Young people are encouraged to try a wide range of different types of food to widen their experiences. Meal times are seen as an important time of the day and young people are encouraged to participate in regular meal times. These times are seen as valuable times for social interaction and in establishing family routines.

Contact with family and peers

Every opportunity will be taken to encourage the maintenance of appropriate family links, and to help parents build upon or in some cases re-establish contact with their children. In partnership with a young person's parents and family (where appropriate) social worker and placing authority, members of staff at Aroona we are committed to assisting each young person in planning for their future. We are also committed to assisting each young person in planning for their future. We are also committed to support and supervise family contact where it is felt necessary and useful either to meet their families at the family home or at a neutral place if this is a feasible option. Young people can phone their family and friends from the house.

Where young people are placed outside their home area, there is specific focus on practical arrangements that need to be put in place to ensure that young people maintain supportive contact with their social workers, with their families and friends; and with their home area.

Arrangements for contact, and any restrictions in contact, will be agreed with the Local Authority prior to admission. We will record details of contact visits in accordance with the regulations; these will form part of the case record and be available to the Local Authority. We will keep the Local Authority informed of our views on the contact arrangements.

There are ample facilities within the home to make contact arrangements work, ranging from accommodating private contact within the child's own space to supervised contact. Parents, family and friends etc. are welcome to share meals provided that this does not conflict with the contact arrangements or impede the smooth running of the home. The home aims to ensure that a welcoming and congenial setting is available for all visits.

If a child has a mobile telephone a contract will be drawn up regarding its use; if the child is unable to adhere to the agreement the details may be changed or the phone withdrawn or its use supervised according to need.

Young people are encouraged to build and maintain positive relationships with peers. This is encouraged through meeting new people on activities, clubs or when out in the local area. Staff support these relationships and encourage the young people to organize activities, tea visits, spend time in the local area, communication on their mobile phones and social networking (if appropriate to the young person).

Key Worker Sessions

Each young person placed with us at "Aroona" is allocated 2 key workers. These staff members have direct responsibility to oversee and support the young person during their placement with us. Fortnightly the young person and one of their key workers will take time

to talk and reflect. Any worries or concerns the young person might wish to discuss can be dealt with. The salient points from this session are recorded on a Key Worker sheet and signed by the young person and staff member. These sheets are reviewed at the next key worker session.

Protection of children

Promoting Positive Behaviour

Control at is maintained on the basis of good personal and professional relationships between staff and the young people in our care. It is recognised that a home in which good behaviour is praised and rewarded is a preferable alternative to the punishment of negative behaviour and by providing a positive, supportive and safe environment, staff are more able to divert a young person's energies away from destructive and inappropriate behaviour.

We will not be able to eradicate a young person's negative behaviours overnight and in order that our home may function as a harmonious community there are some boundaries and restrictions on certain types of behaviour.

Accordingly when limits are set, they are consistently applied by staff and are discussed with the young person concerned so that they know why a particular action has been taken.

Where consequences are felt necessary it is important that these are seen to be relevant and just and that they are never used as retribution, revenge or to be seen as a power thing. They are designed to encourage young people to "stop and think "and to make appropriate decisions about their behaviour in the future. All consequences put into place are with the desired outcome of educating a young person on their behaviours and modifying these over time. Ideally these consequences will be of a reflective nature looking back on the negative behaviours to focus on developing learning strategy's for the future. Ideally the young person, if they have the ability, will be involved in the process of choosing an appropriate consequence for their actions. An example of this would be in the incident of causing

significant damage the young persons would be involved in the process of repairing the damage.

Consequences could be:

- Restitution
- Reparation for damage
- Curtailment of leisure extras
- Additional house chores
- Increased supervision

All consequences administered will be logged in the specific book for this purpose and will include in each entry the name of the young person, date of misdemeanour, details of the

inappropriate behaviour, names of staff present and nature of the sanction. Each entry will be countersigned by the Registered Manager or General Manager

Physical Intervention Policy

As a general rule, physical intervention of any young people is not acceptable and is rarely used and only if the young person is at risk of harming themselves, others, or of seriously damaging property. As part of the young people's care plans there will be an individual behaviour management plan which will include details of the physical intervention techniques appropriate for that individual young person.

If physical intervention is used then all ROC Northwest Ltd staff members follow the guidelines of the Team Teach training programme. This is one of the approved programmes of BILD and follows Government principles on the use of physical intervention. All ROC Northwest Ltd staff members have received training in Team Teach. Further details of the training programme are available from the General Manager.

Unauthorised Absence of a Young Person

Any young person will be considered "missing" when they have left the house without permission and their whereabouts are unknown, or when they have failed to return at a pre-arranged time. Once it is suspected that the young person is missing a careful search of the house, garden and immediate area will be initiated. If after this search there is still no sign of the young person and a period of thirty minutes (Unless risk assessment states otherwise) have elapsed then the young person will be reported to the police.

After reporting the matter to the police staff will then notify the young person's social worker (EDT if at night) and the family if this is deemed relevant. All paperwork with times of phone calls will be kept.

Staff are pro-active and will go and search local areas that the young person may have an association with.

It is our policy that if there is any doubt regarding the safety of any young person, the police will be notified immediately.

When a young person returns to the house either through their own volition or returned by police or staff members we will see to their needs and at some appropriate time discuss with them why they went missing. A young person has the right to speak to or request a visit by their Social Worker or Independent Visitor or advocacy. The Missing from Home Coordinator will be informed and if deemed necessary a meeting will be arranged with social worker to talk to the young person to ensure that their well-being and safety is being promoted.

Fire Precautions

Fire drills are practiced and recorded regularly. The local fire officer has inspected “Aroona” and any recommendations made have been fully instigated.

We ensure all adequate precautions are taken against the risk of fire and that adequate arrangements are made for warning of fire and for the evacuation of the building in the event of fire. All staff and the young people resident understand the procedures to be followed in the event of a fire. Any outbreak of a fire requiring evacuation of our house by the young people will be notified to the responsible authority and the home’s registered Inspection Unit.

Each new young person and member of staff are provided with a fire drill to ensure they are aware of the sound of the alarm on it activating and where the evacuation points are within the building.

Leadership and management

Our Registered provider & General Manager

Katie Stephens is the Responsible Individual for “Aroona”. Katie visits on a regular basis and attends regular meetings. As Director of ROC Northwest she is responsible for all aspects of finance and operational planning. She has considerable experience having run three very successful companies.

Qualifications:	NVQ 4 Care BA (Hons) Community Studies MA Social Work and Welfare Studies NEBS Diploma in Management Registered Managers Award
Experience:	Eighteen years in total, including Head of a 14 bed mixed unit for

young people with emotional and behavioural difficulties, General Manager of Partners in Care Ltd caring for young people with challenging or emotional and behavioural difficulties and General Manager of ROC Northwest Ltd caring for young people with learning and physical disabilities.

Our General Manager

Emmie Wearing has the responsibility of overseeing and supervising the management of Aroona. Emmie visits on a regular basis to support and supervise the Manager to ensure all policies, procedures and administration are monitored and implemented to the highest standard.

Qualifications: NVQ Level 3 CCYP
Level 5 Diploma in Leadership for HSC CCYP (England)

Experience: Twelve years' experience of working with Children and Young people with LD and ESD in a residential setting. Emmie has previously been a Registered Manager for ROC Northwest.

Our Registered Manager

Stephen Doody is the Manager of the home.

Qualifications NVQ Level 3 CCYP

Experience Steve has 10 years' experience of working with Children and Young people with LD and ESD in a residential setting and has completed training in safeguarding, CSE and attachment & trauma. He is currently completing his level 5 diploma in leadership for HSC CCYP (England)

See the appendix for details of staffing structure including the experience and qualifications held.

Our staffing team consists of:

A minimum of two staff provide care for the young people at Aroona by means of a flexible rota between 8:30/7.00am and 10:30pm each day, seven days per week. At Aroona we also provide outreach care which is arranged from Aroona depending on the needs of the young people, additional staff will be sought. Two members of staff will provide sleep in cover during the night between the hours of 10:30pm and 8:30am.

The staff we employ are selected for their ability to deal with the young person's concerns and problems in a professional, caring and nurturing manner and that they have the

necessary interpersonal skills to talk with children in a calming, diplomatic, understanding manner, taking into account an individual's beliefs, thoughts and practices. Staff work with the young people in a non-institutionalised manner, friendly but firm, setting boundaries which are reliable without being too rigid. We believe that young people only grow and mature if they are allowed to take calculated risks, gradually taking more responsibility for their own lives and behaviour.

All new staff receive induction training regarding our policies and procedures with particular detail to Child Protection issues, avoidance of confrontation and confidentiality. Following this they embark on a 6 month Induction programme. All staff receive training in First Aid, Food Hygiene, Health and Safety at work, Moving and Handling, Fire training, and Physical Intervention training in the form of Team Teach. All staff will begin to complete a CWDC work book seven days after starting employment and will have six months to complete this and other training will be provided as deemed necessary in order to support the needs of the home.

Each staff member receives regular meaningful supervision on a one to one basis, this involves meeting with their line manager for a supervision which covers areas of casework, personal development and training needs. Notes will be made during the supervision and these will record the salient points of the meeting. A copy of these points will be given to the staff member to read and sign if they are in agreement that they reflect the main points of the discussion. Staff will also have an annual appraisal which enables staff to talk about their performance in their work future training needs and career development. In addition staff team meetings are held each week, helping to create a team who are able to work constructively and consistently together. There will also be thorough and detailed handover process between each shift to improve in the homes consistency making sure that there are no shortfalls in the day to day running of the home and the care delivered to the young people.

Following Induction Training all staff embark on Level 3 Diploma CYP at College. Staff that have already acquired NVQ Level 3 training will be given the opportunity to embark on further training.

ROC Northwest Ltd are committed to ensuring that our staff are appropriately trained and that all staff are allowed to reach their true potential in the work place. ROC Northwest Ltd is proud to hold the Investors in People Award. All training is constantly reviewed to ensure we comply with current legislation and good practice

Care Planning

We will also take into consideration the fact that there are young people already in residence. The age, sex and maturity of the existing young people will also be a contributory factor to whether we could offer a placement, as we match young people in order to facilitate a successful placement, thus maximising outcomes.

We will offer a placement to a young person and we genuinely believe we can provide a safe, caring environment for that young person and we can address, with some success,

their needs. We will put a package together in the form of a detailed Care Plan and Risk Assessment.

Criteria for admissions

We will offer a placement to a young person if, after reading the reports, we genuinely believe we can provide a safe, caring environment for that person and that we can address, with some success, their needs.

If we believed we couldn't appropriately meet the needs of the young person we would never offer a placement and give the placing authority clear reasons to why we felt unable to do so.

Planned admissions

When a referral is made to ROC Northwest Ltd and there is a placement available at Aroona we ask the referring agency for their referral form. If on receipt of this it is considered appropriate to move forward then the following procedure is instigated.

1. Young person's social worker is contacted to arrange a pre-admission meeting and to ensure that all appropriate information regarding the young person is forwarded to ROC Northwest Ltd. This information should include educational reports, psychological assessments, social history, court proceedings and present situation regarding the young person.
2. If required a manager and staff member from Aroona will visit the young person at their present abode to discuss the possibility of a placement and to answer any questions the young person might wish to ask.
3. The social worker should be invited to visit the house, before admission, to ensure the placement and environment is suitable in meeting the young person's needs.

4. The young person should have the opportunity to visit the placement before admission to meet the staff group and ask any questions regarding his/her placement with us.
5. A pre-admission meeting will be held between the Placing Authority and ROC Northwest Ltd to discuss an initial "Care Plan" for the young person and an agreement reached regarding the placement's desired outcomes.
6. ROC Northwest Ltd will submit to the placing authority a copy of their "Service Agreement" which sets out the terms and conditions of service provision.

Emergency Admissions

In the event of an emergency admission where there is not time to follow standard admission procedures, ROC Northwest Ltd will endeavour to work in partnership with the placing

authority to ensure that the young person is removed from their point of crisis and re-housed with us in as short a time as possible.

For an emergency procedure placement to be successful it is important that the manager and staff at Aroona are given **full** details regarding the young person's present situation and background so that a professional and proper decision can be made regarding the feasibility of a placement.

On receipt of a completed referral form, managers at ROC Northwest Ltd will meet to discuss if they believe the needs and care of the young person can be successfully met. An answer will be given to the authority within three working hours.

If ROC Northwest Ltd agrees to take the emergency placement then a "Placement Agreement" confirming placement, fees and initially how long the young person will be in our care will be faxed to the placing authority.

On return of this signed "Placement Agreement", ROC Northwest Ltd will:

- Ensure staffing is in place and accommodation is ready to receive the young person
- Will collect the young person from any destination in the UK and bring back to Aroona.

On arrival at Aroona the young person will be allowed to settle and made to feel at home. He/she will be allocated a key worker who will be responsible for explaining the basic rules and routines of the house, expectations staff will have of the young person and what the young person can expect from the staff. A Young Person's Booklet is given to the young person that explains much of the information he/she will need to know during their stay.

During the first 48 hours emphasis is placed on allowing the young person to settle, find their bearings and getting to know the staff that will be working with them. This is a crucial time and every effort is made to create an atmosphere where the young person is made to feel safe, cared for and wanted.

If a young person comes to the home as an emergency placement a placement review meeting will be held within 72 hours.

Arrangements for Statutory Child in Care reviews

Section 26 of The Children Act 1989 updated 2004 requires that "Looked after Children" have their Care Plans regularly reviewed.

ROC Northwest Ltd aim to ensure that placing authorities follow the statutory review system:

- The first review in placement will be shortly after 28 days, unless there has been an emergency placement which requires a meeting within 72 hours.
- The second no later than 3 months.

- Regularly every 6 months later

Due to the nature of the referrals we believe it may be necessary, on certain occasions, to hold reviews more frequently than this.

Discharge Procedure

In most situations the young person's discharge/ leaving Aroona will be planned and agreed amongst all relevant parties, including the young person and will be achieved with the utmost professionalism and sensitivity.

Transition Arrangements and Leaving Care

Aroona will help a young person to achieve as great a degree of independence as possible up to the time of leaving care. Detailed planning will take place in the time leading up to leaving care to ensure that appropriate and agreed plans are in place, so that the young person's needs are fully met during the next stage in his or her life. There will be early and full consultation with providers of through care and after care services to ensure smooth transition. On occasions there may be a need to extend the young person's placement if a suitable placement for transition has not been identified in order to support the young person's needs. In these cases the homes registered manager will consult with Ofsted to ask them to re-register the home to allow for that young person to remain past their nineteenth birthday.

Personal Care Plans and Risk Assessments

All the young people residing within a ROC Northwest establishment will have a thorough and detailed Personal Care Plan which will be developed in partnership with the young person. Information will be gathered prior to admission from authority documentation however this will also be a live document which will be developed contemporaneously as each incident occurs identifying positive strategies and affect behaviour management techniques for that individual young person. This will be a day to day guide on supporting the young people giving limitations, boundaries and structure to their lives. As well as including the best

methods in supporting them when in crisis. As part of our Behaviour Management Plans we will include there will be details on the types of behaviours that occur, regular occasions they occur and what they look like.

In addition to this there will be a personalised plan which the young person has been involved with where appropriate, on how to best manage themselves when in crisis. This also includes details of appropriate physical intervention as well as the debriefing process. Aroona puts great importance on the debriefing process, this is a learning curve for all involved in how incidents can be managed better in future, as well as an opportunity to work closely with the young person to develop coping strategies for future. The desired outcome from these incidents is that there is a development in the young people's relationship with one another and staff and relationships are improved.

Electronic Surveillance

Door alarms are fitted on each young person's bedroom door for the purpose of safeguarding and promoting the welfare of the young people at Aroona.

Prior to admission the local authority are asked to consent in writing to the door alarms. Young people so far as reasonably practicably in the light of their age and understanding are informed that Aroona has door alarms fitted and the purpose of them.

Occasionally we may also be asked by a local authority to use an individual monitoring device such as a baby alarm to monitor a young person through the night for example a young person with epilepsy. Written permission is sought if they are used.

Inspection Unit

Our local Inspector from the Ofsted Social Care Team has the legal responsibility to inspect "Aroona" to monitor the quality of life and quality of care being offered and to ensure that the home is in accordance with all relevant regulations.

Regulation 44 Visits

Independence and impartiality are crucial so ROC Northwest Ltd has recruited a full time Quality Assurance Manager who is engaged pursuant to a contract of service to complete independent critical scrutiny and analysis for a range of our services. In their absence ROC Northwest Ltd will request that a senior manager independent of that home to complete independent critical scrutiny and analysis for a range of our services.

The Independent Regulation 44 Visitor will visit the identified home monthly, these visits will be unannounced and may also be out of office hours at times to ensure appropriate consultation with the children and young people.

Before leaving the home the Independent Regulation 44 Visitor will provide bullet point feedback about the findings of their visit to the most senior member of staff on duty, usually the Manager or Deputy Manager and then provide a written report in a timely fashion.

Independent Visitor

An independent visitor from NYAS, Susannah Gilchrest visits Aroona once a month to speak with the young people in residence. The young person can request to speak with the independent visitor at any time during the month and this would be arranged by staff members.

Inspect our homes yourself

Before you place a young person in our care or if you are a parent of a child who might be placed with us then please feel free to arrange a visit to "Aroona" to inspect our home and talk to our staff about the care we can provide.

Privacy and Access

Young people's privacy should be respected. Unless there are exceptional circumstances, staff should knock the door before entering young people's bedrooms; and then only enter with their permission.

The exceptional circumstances where staff may have to enter a young person's bedroom without knocking or asking permission are as follow:

- To wake a heavy sleeper, undertake cleaning, return or remove soiled clothing; though, in these circumstances, the young person should have been told/warned that this may be necessary.
- To take necessary action, including forcing entry, to protect the young person or others from injury or to prevent likely damage to property. The taking of such action is a form of **Physical Intervention**.

Young people at Aroona can access all areas of the home, apart from the staff sleep in bedrooms and the office.

APPENDIX

Workforce capacity and capabilities

NAME	POSITION	QUALIFICATION	EXPERIENCE
Stephen Doody	Registered Manager	NVQ Level 3 CCYP Currently completing Level 5 Diploma in Leadership for HSC CCYP (England)	Steve has Vast experience working with young people with emotional behavioral difficulties. 10 years' experience in residential settings with a track record of positive outcomes for young people
